Yale-NUS College to offer speciality courses

Students can combine liberal arts degree with law or environment-related studies

By AMILIA TAN

THE Yale-NUS College will offer two programmes that combine a specialisation in law, or in environmental science or management, with its liberal arts education.

It was announced last year that students would graduate with a Bachelor of Arts or Science (Honours) degree in law, or a Bachelor of Science in Environmental Science or Management. The programmes will be offered from this year.

The college has also confirmed that it will offer two new programmes, a Bachelor of Law (Honours) degree from the NUS Faculty of Law, and a Bachelor of Arts (Honours) degree from Yale College.

Students will apply for these programmes in the first year of their undergraduate studies. Each programme is limited to 25 students.

Students who meet the requirements of both programmes will be admitted to both.

Students who do not meet the requirements of both programmes will be admitted to the programme in which they meet the requirements.

The college has also confirmed that it will offer a new degree programme in Environmental Science and Management.

Students who meet the requirements of both programmes will be admitted to both.

Students who do not meet the requirements of both programmes will be admitted to the programme in which they meet the requirements.
